Creative Contract Packaging Corporation Recalls HERB-OX® Bouillon Products

Recall Reason: Select items are being recalled because of possible contamination with Salmonella. This action is being taken after Basic Food Flavors, Inc. ("Basic") issued a recall for all Hydrolyzed Vegetable Protein ("HVP") dry powder manufactured by Basic Food Flavors on or after September 17, 2009, due to a positive test result for Salmonella in a production lot. Records indicate that some of the HVP being recalled by Basic Food Flavors was used as an ingredient in HERB-OX® items.
