

Food Recall Action Alert

A N.G.A. Members Only Service

McNeil Voluntarily Recalls Certain OTC Infants' and Children's Products

Recall Reason: McNeil Consumer Healthcare, in consultation with the U.S. Food and Drug Administration (FDA), is voluntarily recalling all lots that have not yet expired of certain over-the-counter (OTC) children's and infants' liquid products. McNeil Consumer Healthcare is initiating this voluntary recall because some of these products may not meet required quality standards. Some of the products included in the recall may contain a higher concentration of active ingredient than is specified; others may contain inactive ingredients that may not meet internal testing requirements; and others may contain tiny particles. While the potential for serious medical events is remote, the company advises consumers who have purchased these recalled products to discontinue use.

Packs/Codes: The product list includes certain liquid infant's and children's Tylenol, Motrin, Zyrtec, and Benadryl products. For the complete list, visit www.mcneilproductrecall.com.
